Contradiction

- This fails all four *Laws of Thought*, of sanity
- Objective Truth has been established, for centuries, against which each element can be Identified & determined
- God is infallible, He cannot contradict Himself, He will not confuse us
- His Church is infallible, she cannot contradict herself or teach error: if it does, it is **not** the Catholic Church
- The Pope is infallible, he cannot contradict the Church or teach error: if he does, the "church" he is in, is **not** the Catholic Church
- Failure to resolve these staggering contradictions **installs** a false reality, schizophrenia, insanity
- **Resolution is demanded**
